Dear LEA and Government Executive

TeleStrategies the sponsor of Intelligence Support System (ISS) World Conference, the largest gathering of law enforcement agents, government policy makers, telecommunications service providers and their vendors announces **two new LEA training programs** and **30 conferences sessions** conducted by the world leading government, telecommunications service provider and LI vendor experts at its Fall program on December 1-3, 2004 in McLean, VA, USA.

In today's rapidly changing regulatory and legislative environment anyone with lawful interception responsibilities can't afford to miss this event. You will learn the latest on VoIP CALEA requirements, why the FBI supports PacketCable's Architecture, how to recover LI costs, standards and more. Government representatives from the DoJ, FCC, FBI and DEA; telecommunications service providers from Verizon, AT&T Wireless, AOL and Earthlink and leading LI vendors will share their prospective on lawful interception in the new world of VoIP, wireless data and other IP-Based services

To Register at the special LEA and government rate: **Click Here** and enter (**ISS-LEA**) as the special discount code.

If you register by November 1, 2004 you can take advantage of our special training from price of \$695 (a savings a \$1,100) for all three training and conference sessions days. Registration for Day 1 or Day 2-3 only is also available at a discount price. ALL Training Seminar Attendee will Receive a Certificate of Attendance.

For a full listing of Keynote Presentations, Speakers, and Sessions, please visit our website at: http://www.telestrategies.com/iss04_fall/
